

# Season's hottest day at 42.2°C; air 'very poor'

**Piyang Agarwal**  
@timesgroup.com

due to dry winds and clear sky. The Air Quality Index of Delhi was recorded at 305 in the "very poor" category on Wednesday as against 205 in "poor" category on Tuesday. The capital's AQI on Monday was 180. Experts said gusty winds at a speed of 35 kmph transported dust from Rajasthan side to Delhi and PM10 was the lead pollutant. Similar conditions have been predicted for Thursday. IS Kartiik, programme associates, Council on Energy, Environment and Water, said, "Delhi has witnessed high PM10 levels in the range of 300-700 µg/m<sup>3</sup> in the last 32 hours. The highest PM10 level was recorded at 10pm on Tuesday. This rise is attributable to the long-distance transport of dust from nearby arid regions owing to the prevailing westerly winds."

# Hospital official apologises over language row

New Delhi: The nursing superintendent of GB Pant Hospital has apologised for issuing a controversial circular that barred nursing staff from speaking in Malayalam on duty, saying he had "no intention to disrespect any Indian language, region, or religion". The hospital had withdrawn the circular, which asked the nursing staff to converse only in Hindi and English, on Sunday, saying it was issued "without any instruction or knowledge of the hospital administration and the Delhi government". In a letter to the medical director of the hospital Monday, the nursing superintendent explained the reasons behind issuing the circular and said it was issued in "a positive sense and there was no bad intention against Malayalam speaking staff".
