This is for information and records please.

Thanking you.

Encl: as above

Yours faithfully

(Rajan Kapur)

CGM & VP-Company Secretary

Impact of Covid-19 on Petronet LNG

This is with reference to SEBI circular dated May 20, 2020 advising on disclosure of Material Impact of COVID 19 Pandemic on listed entities under LODR Regulations.

In this connection, it is hereby informed that due to nationwide lockdown imposed by Government of India from the last week of March 2020, the off-take of RLNG from Dahej terminal was reduced. This decline in throughput was due to partial/full shutdown of number of industries, refineries, power plants etc. which reduced their off-take of natural gas as the demand of their respective products decreased. Post first week of June 20 when the lock-down was relaxed, the demand of RLNG has seen gradual recovery and since then PLL's Dahej terminal is operating at its full capacity of 17.5 MMTPA (63 MMSCMD). Before COVID 19, average send out during January- February 2020 was around 58 MMSCMD (92%) at Dahej Terminal and 3.57 MMSCMD (20%) at Kochi Terminal. The RLNG send-out prevailing during the lockdown months at both PLL terminals was as follows:

Month	Dahej		Kochi	
	Avg. Actual Send out	% operations of nameplate capacity	Avg. Actual Send out	% operations of nameplate capacity
Mar-20	55.59	88.24	3.42	19.00
Apr-20	37.26	59.14	2.29	12.72
May-20	49.72	78.92	2.20	12.22
Jun-20	62.62	99.40	3.46	19.22

Owing to COVID 19 Pandemic and consequent reduced RLNG demand during the lockdown period, PLL was constrained to invoke Force Majeure for nine (09) long term cargos with its suppliers and discussion on the same are ongoing. During the said period, PLL also received requests under regasification contracts for deferment of third party cargos to subsequent months.

Submitted for you kind information please.
